

## VISIT MORE AFRICA

More Africa offers you the possibility to do something good during your holiday.

More Africa offers special education, training, physical therapy and medical care to children with physical and/or mental disabilities.

More Africa will bring awareness to tourists about the work we do, but besides we want to inform people about the culture of this island. Is it for example a good idea to give pens or candy to random children in the village? What do you achieve with this? We see it as our aim to create awareness about the effects of this behavior.

By visiting More Africa, you will receive information about the project, a tour through the school and a local lunch.

For privacy reasons and the benefit of the children, as a visitor you are not allowed to work or directly communicate with the children or to take pictures of them. At the end of the visit, you will receive an online document with picture of the project and the children.

By visiting More Africa, you contribute directly to the development of the project.

Wednesday and Fridays from 11.00 up to 13.30. Maximum of 6 people  
It's only possible to visit on appointment (e-mail or phone)

Guided visit through the project / Local lunch /  
(including one soda or bottle of water per person)
